Subject: DOJ/Microsoft Antitrust Settlement

As a taxpayer and long-time computer professional, I feel that I must strongly protest the proposed settlement with Microsoft as wholly inadequate and failing to meet even the most basic test as a "reasonable" remedy given the company's past actions and current direction.

Please reconsider your decision in light of the overwhelming response being made by the computer industry and consumers. This is a pro-Microsoft, anti-consumer decision which the observer can only interpret as a blatant move by the Administration to make concessions favorable to Microsoft at the expense of the tax paying public.

We, the people, will not accept this solution.

Sincerely,
Micheal Black
